Software Freedom Kosova Conference SFK'14

24-26 October 2014

Call for Sponsors

FLOSSK is working on organizing the sixth edition of Software Freedom Kosova Conference 2014 (SFK14), which will be held on October 24-26 in Prishtina.

FLOSSK (Free/Libre Open Source Software Kosova) is a nongovernmental organization established to support, promote and develop free and open source software, open and participatory knowledge, education through open courses in information technology and open standards, culture and society through the use of free communication.

To meet its goals, the organization holds an annual Software Freedom Kosova Conference which is available to the public free of charge.

Software Freedom Kosova (SFK) is the largest conference of its kind in the Balkans.

Previous conferences have had tremendous impact on creating strong ties of friendship between the local, regional and global community. For five years we have brought together software developers, thinkers, leaders and providers to collaborate, learn and share common interests on free software and open source through a combination of lectures and workshops.

Software Freedom Kosova is a community-driven conference. This year we plan to have 2 days of workshops that will last 1-2 hours and a whole day of 30 minute lectures with various topics on free software and open source code. We believe that these lectures and training will help build technical skills and prepare individuals for work.

This initiative requires a lot of effort and determination, so we are dependent on an active and dedicated community of volunteers and supporters such as your organization every year to help make happen a very important event for Kosovo.

We believe that financial assistance from sponsors would have great impact on the organization of the Software Freedom Kosova 2014 as SFK could invite foreign speakers to share their experience with us in Kosovo.

Based on the previous five events and plan this year, we think that the costs for SFK14 will reach a total of € 6,000. Your

support will mainly cover the costs presented in the following:

- Accommodation and travel expenses of our international speakers;
- Handouts for the conference and its promotion (flyers, posters, banners, stickers, ID cards, T-shirts, certificates, etc.);
- Spending on Internet, print, television and radio advertising;
- Feeding the volunteers during the conference;
- Additional expenses.

We have identified the following sponsorship packages for your consideration:
