

Software Freedom Kosova Conference SFK'14

24-26 October 2014

Call for Speakers

We are inviting all free and open source software and hardware hackers to submit their talks and workshops for the sixth edition of SFK to be held in Prishtina, Kosovo, on 24-26 October 2014. Kosovo is fun and we have a history behind ourselves which you can see here <http://sfk.flossk.org>.

Priority areas this year: mobile web, gaming & open hardware.

Conference talks to be held on 25 October, a Saturday, should last no more than 25 minutes, including Q&A. Workshops will be held on 24 and 26 October and may last 1-2 hours. Conference talks should be in English. Workshops may be in Albanian, preferably optional based on attendance.

For consideration please submit an e-mail to team@sfk.flossk.org with the following information:

- Your full name, e-mail address, location, any website where can learn more about you or see your work.
- Tell us about yourself in <100 words.
- What is your talk/workshop topic?
- Describe your topic in <150 words.
- Who is the talk/workshop dedicated to?
- Would you be willing to do the talk as a workshop or vice versa?
- Do you need financial support to come and stay in Prishtina? If yes, what would the amount be? We can only support speakers with expenses roughly equal to those coming from Europe, sorry.

File one of these for each topic you're proposing.

We'll let you know if we can give you a spot by 15 September.

Send questions to team@sfk.flossk.org. If in doubt, you are encouraged to submit. Please share this Call for Speakers with your hacker friends.

Thank you!
